

Bransle de Montarde

Arbeau 1589/Almond

1

6

Fine Nx *D.C. al Fine*

Dance is played completely N-1 times (where N is the number of dancers) followed by first (A) section only as a finale.

The second section is played once for each dancer each time through.

Thus the pattern is $(n-1) \times (AnB) + A$.

Original melody is one step lower (C Mixolydian mode).

Arranged June 2, 1996 by Russell G. Almond
