

Of these six Bushels of Malt I make one Hoghead of Ale and another of small Beer: But if I was to buy them of some common Brewers, the Charge will be as follows, viz.

	l.	s.	d.
One Hoghead of Ale contain- ing 48 Gallons, at 6 d. per Gallon is	}	1	4 0
One Hoghead of small Beer containing 54 Gallons, at 2 d. per Gallon is	}	0	9 0
		—	—
		1	13 0
		—	—
Total Saved	0	11	8

By the above Account it plainly appears, that 11 s. and 8 d. is clearly gained in Brewing of six Bushels of Malt at our own House for a private Family, and yet I make the Charge fuller by 2 s. and 6 d. then it will happen with many, whose Conveniency by Servants, &c. may intirely take it off; besides the six Bushels of Grains that are currently sold for Three-pence the Bushel, which will make the Eleven and Eight-pence more by four Shillings, without reckoning any thing for Yeast, that in the very cheapest time
sells
