

time consists, which is the *Circular Rule*, and by which this lesser *Diminution* of the *Perfect Prolation* (the *Internall Notes* being *Denigrated*) is thus Charactered.

As for any motion of *Tact* (wifiter then this *Lesser Diminution* if there should bee need thereof, it should be either thus Charactered & or by the former *Retorted* thus  $\text{\textcircled{D}}$  Wherein the *Stroke* drawne through the *Semi-circle* and the *Prick* in it, doe signifie a *Coniunction* of both *Prolations* by a *double Diminution* of the *Perfect* and *Imperfect Measures* of the *Tact*. And thus much shall suffice for the banishing of the *Ternary Number*, and the placing in steed thereof the true *Character* of the *perfect Prolation*, with the *Diminution* of it by the *Circular Rule*.

THE *Imperfect of the Lesse Prolation*; in the proper forme of it is, when there is *Imperfection* of all *Notes Measurable*, from the *Larg* to the *Minime*; and is thus Truly Character'd  $\text{\textcircled{C}}$  and vnder it are composed, as *Diuine Seruices* for the Church, so also *Mottets*, *Madrigals*, *Pauins*, and such like for other vses.

$\text{\textcircled{C}}$  Example of the Imperfect of the Lesse Prolation.
